Er gibt augenblicklich Auskunft zum allgemeinen Carotinoid-Spiegel einer Person. Er hilft dir dabei, einen Überblick über den Carotinoid-Spiegel deiner Haut (HCS) zu bekommen – nämlich die wichtigsten Änderungen.

10

ÜBERDURCHSCHNITTLICHE CAROTINOID- ABSORPTION

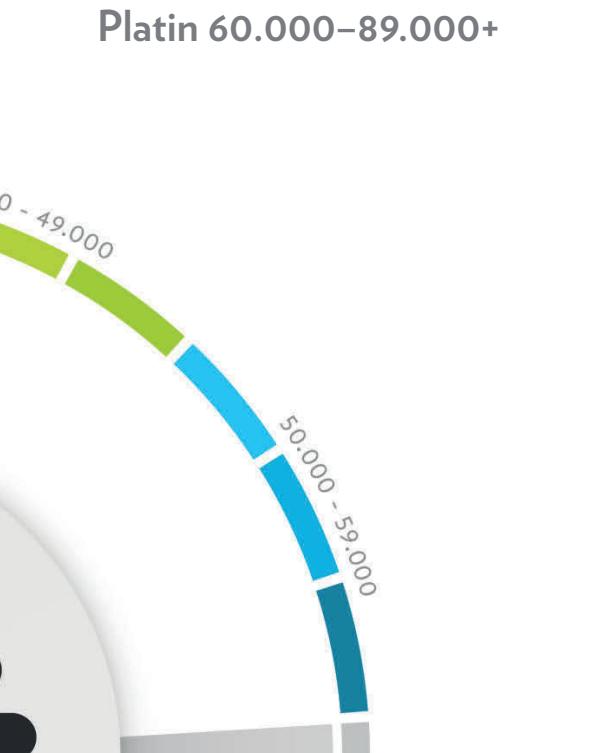

b 30.000–39.000 **Blau** 50.000–59.000

Orange 20.000-

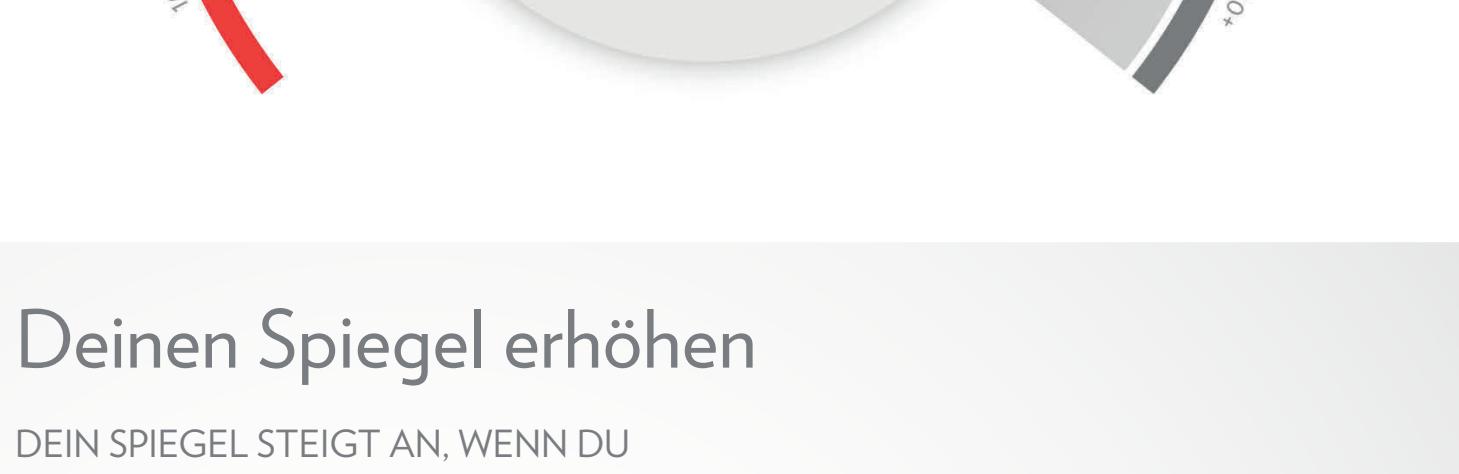

A donut chart illustrating the distribution of 100,000 users across three categories. The categories are represented by segments of the donut: an orange segment for 0-29,000 users, a yellow segment for 30,000+, and a green segment for 30,000+. The labels are placed outside the chart area.

Category	Approximate Range	Approximate Number of Users
Orange	0 - 29,000	~33,000
Yellow	30,000+	~34,000
Green	30,000+	~33,000

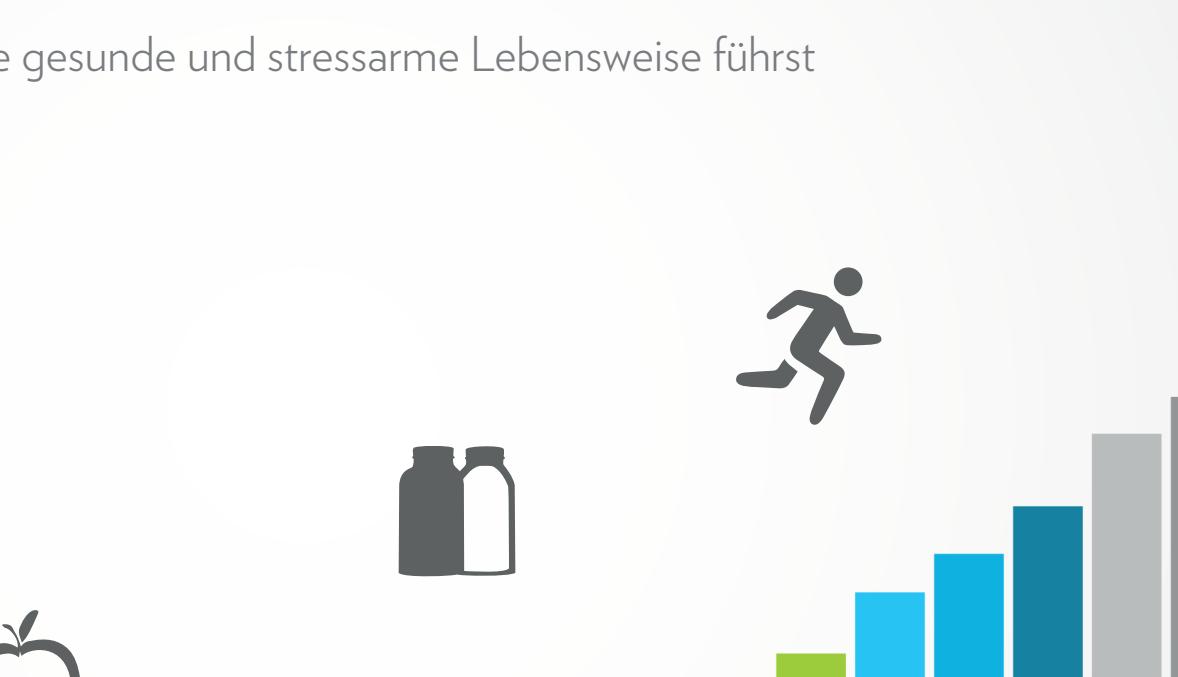

19,000
