-----------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------

Why is the Epoch FFG Collection discontinued?

Nu Skin has always believed in the importance of sustainability. It’s a key part of our story, and few products have told that story as well as those in our Epoch range. However, sustainability also means making difficult decisions at times, including the decision to discontinue the Epoch FFG Collection. We felt that restocking this collection was not feasible in the long-term. As all of the products are already available to purchase individually, removing the box, certificate and ribbon helps us meet our sustainability goals by limiting production and storage.

When will this discontinuation take place?

The Epoch FFG Collection will be discontinued in February 2021.

Will all of the products in the Epoch FFG Collection still be available?

All of the products in the Epoch FFG Collection (Glacial Marine Mud, Sole Solution, Firewalker, IceDancer, Ava Puhi Moni Shampoo and Light Conditioner, and Baobab Body Butter) will remain available to purchase separately for the foreseeable future.
