* To remain laser-focused on innovation and delivering the highest-quality products that deliver next-level results, we find it necessary, from time to time, to discontinue products. This, to help ensure we deliver a highly curated, integrated beauty and wellness portfolio that best meets the needs of your customers.

Enforcing this strategy, UV Block Hydrator will be discontinued once the current stock is be depleted. Therefore, the kits containing this product will also be discontinued.

Rest assured that the remaining individual products, and especially our two best-sellers - 180° AHA Facial Peel and Neutralizer and 180° Face Wash - will remain in the portfolio and will continue to be purchasable separately.

****Why is the Epoch Yin Yang mask being discontinued?**

As you know, we are regularly updating our product portfolio as part of our efforts to optimise our Nu Skin Catalogue. We're constantly takings steps to make sure our product portfolio is the best that it can be, optimising it for future growth that we can achieve together. To that end, and to follow our Global directions, we've made the decision to discontinue the Epoch Yin and Yang mask once the current stock is depleted, making space for future innovations and more exciting product launches. Please note that this product was also discontinued in several other markets. On EU&A's level, this is also due to it's low sales in the past year. And so, for these reasons we are no longer able to keep this product within our portfolio.

*****Marine Omega: the current formula will be discontinued and replaced by a new formula. The new formula will be launched at the end of 2024. The product remains in our portfolio.**
