BLACK FRIDAY

*Results obtained from a third-party professional assessment based on a 12-weeks in vivo, single-blind consumer use study with 32 female subjects aged 25 to 40 who used the ageLOC Boost System once a day for 12 weeks.

**Results obtained from a third-party professional assessment based on a 24-hour in vivo study performed on 32 healthy female and male subjects aged 18 and over. The moisturisation level of skin was measured using a corneometer in three areas; one area where Dew all day had been applied, alongside two areas for positive (glycerine) and negative (untreated) controls.
