

# An initial ADR

A **new SCS** (Skin Carotenoid Score) **certified product ADR order** (LifePak+, Jvi, Pharmanex® Eye Formula, Beauty Focus Collagen+, g3\*),

**linked** to a new **Scan Card number\*\*** within the **right timelines**

A screenshot of a shopping cart interface. The top section is titled "YOUR CART" and contains a search bar with the text "Search by product name" and a magnifying glass icon. Below the search bar is a product listing for "LifePak®+ 85893742". The listing includes a small product image, the price "€ 73.48", and the product value "€ 71.00". There is a checkbox labeled "ADR" which is checked, and a quantity selector showing "1". A red box highlights the product name and ID, a red cloud with the number "1" points to the search bar, a red cloud with the number "2" points to the product listing, and a red cloud with the number "3" points to the "ADR" checkbox. To the right of the product listing is a "Totals" section showing "ADR Total: € 73.48" and "Product Value: € 71.00", with a blue "CONTINUE" button below. Below the cart is a section titled "Add New Scan Card" with two input fields: "Card Number" containing "5xxxxxxxxxxxx00" and "Card User's Name" containing "Mr Test". A red box highlights both input fields, and a red cloud with the number "4" points to the "Card Number" field. There are "SAVE" and "Clear" buttons at the bottom of this section.

and which is **fully paid and shipped.**

\*Check [www.nuskin.com](http://www.nuskin.com) for product availability in your country.

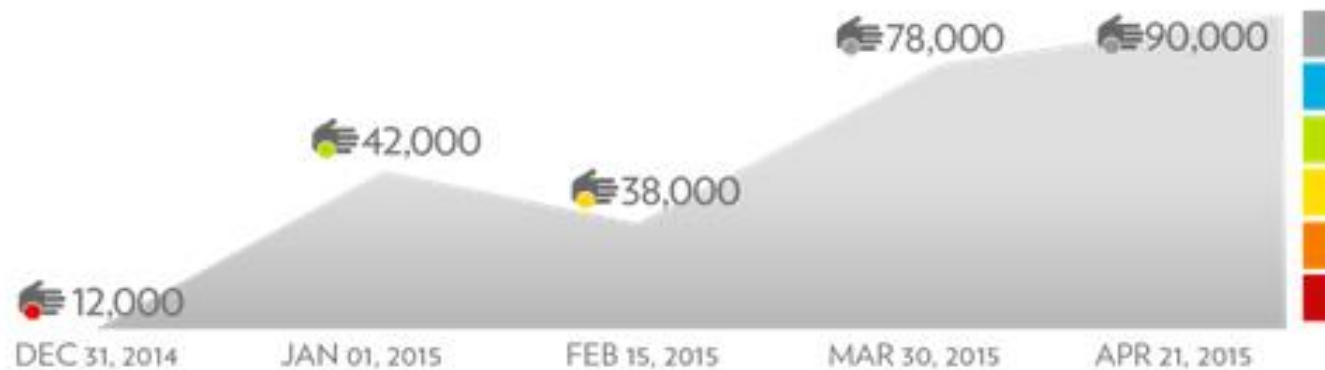

\*\*In order to count, the Scan Card needs to be used for a scan, and the scanner on which the scan was performed needs to be synchronized.
