Tips for pandemic prevention – enhancing your immunity
Wearing masks, washing hands and disinfection are far from enough!
The most effective defence is your own immunity!
That's why I take Lifepak daily.
In addition to that a PhD in Immunology **#George** KU recommended the **#Quercetin** **#EGCG**, there are also doctors reminding that: people with nasal allergies and unhealthy respiratory system are more likely to be infected with coronavirus and probiotics, antioxidants and micronutrients are crucial for prevention.

Have you taken yet today?
Lifepak contains 34 types of vitamin nutrients, 41 types of antioxidants and various micronutrients. Olympic athletes also take it.
Lifepak is a comprehensive dietary supplement, which delivers important vitamins, minerals, antioxidants, micronutrients and phytonutrients to keep human body healthy.

1. Provide antioxidants eg.Catechin to promote normal cell regeneration
2. Contains vitamin E, B complex and more than 40 antioxidant phytonutrients to effectively maintain cardiovascular health
3. Contains vitamins C, E, B6, zinc and various antioxidants to help maintain immune function
4. Contains calcium, magnesium, vitamin D and other nutrients to effectively promote bone health

Splash C- enhancing immunity to defend against the pandemic

A pack of Splash C contains vitamin C of four oranges yet without the fructose of four oranges.

Wikipedia information about vitamin C:

The known therapeutic effects of vitamin C in various organs can be summarized as follows:

- Helps engulf bacteria, viruses and toxins in the white blood cells and maintains the immune system
- Manufacture adrenaline in the kidney to cope with crisis
- Keep the lens transparent to prevent cataract and glaucoma.
- Maintain thinking and muscles controlling functions in the brain and nervous system.
- Renew skin in epidermis layer
- Maintain sperm motility in testis
- Eliminate organic and inorganic toxins in the liver
- Prevent coronavirus infection in the lungs

The last point is the key.

It is helpful to the health anyway.

Tips for pandemic Prevention – Probiotics

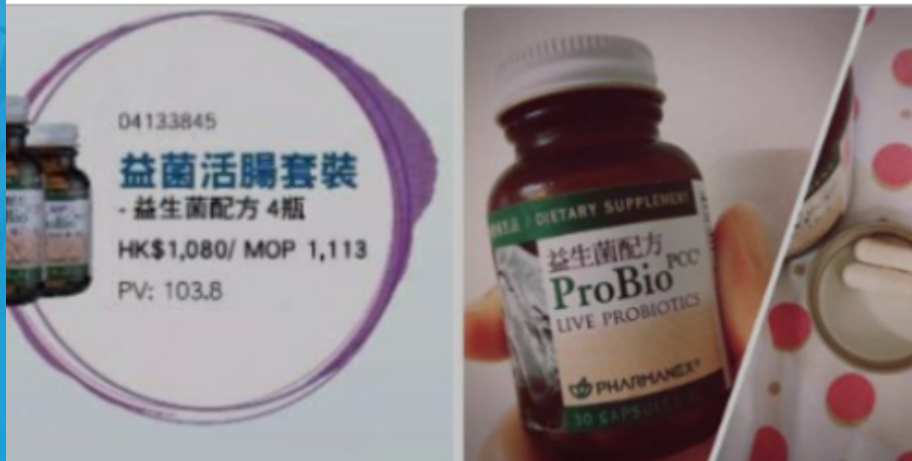

The outbreak of coronavirus in the community is hanging over our head. We have been working hard on collecting the latest news of the pandemic, hoping to help everyone.

The number of confirmed cases continues to rise, however, the vaccine will not be invented in a short time. Senior experts from the National Health Commission found that **#intestinal** microecology is very helpful in the treatment!

If you want to live long, keep your intestine clean.

What are the benefits of my company's ProBio? You can take a look at it:

Smart to pick Gac Super fruit drink 🍷🍷

🍷 Juice that can enhance your immunity.
With the rising confirmed cases of coronavirus, we really have to protect ourselves 🍷. Besides wearing masks, we must also take high quality vitamins to defend against virus.

G3 is a nutrient-rich mixed raw juice made from the "super fruit" Gac. In addition, three super fruits, namely wolfberry, sea buckthorn and prickly pear are added to it.

- One glass of G3 juice = 400 apples 🍏 320 tomatoes 🍅 180 oranges 🍊
- Boosts the immune system
- Promotes the health of eye, cardiovascular, prostate gland, liver and kidney
