

NU SKIN 180°[®] SYSTEM

Watch your skin take a turn for the best. The unique combination of gentle acids and vitamin C in the Nu Skin 180° System promotes visible skin renewal to unveil a brighter, more youthful-looking complexion.

MEET THE NU SKIN 180° SYSTEM

The Nu Skin 180° System is a four-step system featuring a blend of hydroxy acids and vitamin C to give your skin a clearer, brighter, more youthful glow. The special AHA/ BHA/ PHA blend gently—yet thoroughly—exfoliates your skin by dissolving the buildup of dead skin cells. A 10% dose of vitamin C helps brighten and even skin tone. Plus, minimize discoloration and the appearance of fine lines and wrinkles. Use The Nu Skin 180° System daily for smoother, clearer, brighter skin. Discover Nu Skin 180° and uncover the best you.

WHY YOU'LL LOVE IT

- Promotes healthy exfoliation for smoother, brighter, and clearer skin
- Minimizes discoloration and the appearance of fine lines and wrinkles.
- Promotes firmer-, plumper-, and younger-looking skin.
- Reduces the appearance of pores.

PRODUCTS WITHIN THE SYSTEM

- **Glycolic, lactic, and citric acids (a mild AHA blend)**—exfoliate skin to brighten complexion, even skin tone, and reduce the appearance of pores, fine lines, and wrinkles.
- **Salicylic Acid (BHA)**—a gentle acid that's oil-soluble, so it better penetrates and clears pores.
- **Gluconolactone (PHA)**—ideal for those who are sensitive to AHAs, these mild exfoliants even skin tone.
- **Vitamin C**—this powerful antioxidant promotes youthful looking skin by evening skin tone and reducing the appearance of fine lines and wrinkles.

- **Adenosine**— an antioxidant that helps limit the damaging effects of free radicals for brighter, glowing skin.

HOW TO USE IT

For the best results, we recommend using the Nu Skin 180° System products together in this order:

1. Nu Skin 180° Face Wash
2. Mask or Treatment Mask (optional, e.g., Glacial Marine Mud)
3. Nu Skin 180° Skin Mist
4. Nu Skin 180° Renewal Fluid
5. Eye Cream (optional, e.g., Nutricentials Eye Love Bright Eyes Illuminating Eye Cream)
6. Nu Skin 180° Hydrator (morning) or Nu Skin 180° Night Complex (evening)

Always follow the directions on each product's label.

Sunburn Alert: Some of the Nu Skin 180° System products contain an alpha hydroxy acid (AHA) that may increase your skin's sensitivity to the sun and particularly the possibility of sunburn. Use a sunscreen, wear protective clothing, and limit sun exposure while using this product and for a week afterward.

- ageLOC® Tru Face® Essence Ultra
- Tru Face Line Corrector
- Nu Skin 180° Ampoule

NU SKIN 180°[®] SYSTEM

LEARN MORE ABOUT IT

What blend of acids is featured in The Nu Skin 180°[®] System?

The system contains a blend of alpha, beta, and poly hydroxy acids (AHA/BHA/PHA). We've used a blend of these three acids so you get the quick-acting power of an AHA plus the PHA gentleness your skin craves.

What are the benefits of using hydroxy acids?

Hydroxy acids are known for their ability to visibly renew the appearance of skin through chemical exfoliation. How? The key is absorption. AHAs are best known for their fast-acting benefits due to their small size and quick absorption. BHAs are more oil-soluble and that means they're able to penetrate into pores. PHAs are just as effective; however, due to their larger size they're absorbed more slowly. This unique combination provides a robust, well-rounded approach while maximizing your skin's positive reaction. And that equals radiant, more youthful-looking skin.
